 - a. OGRIP, LBRS, OSIP, LiDAR – Jeff Smith**
 - b. 2009 County Profile**
 - c. Ohio URISA Update**
- V. Presentation - Shoreh Elhami, Delaware County**

URISA's GISCorps (www.giscorps.org) coordinates short term volunteer GIS services to underserved communities worldwide. Since its inception in October 2003, the Corps has attracted 100's of volunteers from over 74 countries. To date, GISCorps has deployed over 140 volunteers to 55 missions. These volunteers have contributed over 7,300 working hours in emergency and non emergency response missions including several K-12 projects in 28 countries. The presentation will include information about missions that were implemented most recently.

Delaware County chose to implement the Location Based Response System (LBRS) project in-house. The County conducted a pilot project in 2009 and based on the feedback, completed and submitted all the county wide datasets to OGRIP/ODOT. A summary of the project will be presented.

- VI. Other Business**
 - VII. Next Meeting – March 29, 2010**
 - VIII. Adjourn**
-
