I.   **Welcome & Introductions**
   a.   Welcome and introductions were conducted by Vance Cerasini, OGRIP Forum Chair.
   b.   In attendance were:

Vance Cerasini	Donovan Powers	Brian Hall
Brian Kienle	Jeff Smith	Ian Kidner
Jason Gillow	Larisa Kruger	Brad Zess
Nelda Sisler Buck	Maureen Grener	Tracy Taylor
Steve Crumbacher	Sean Phillip	Brett Allphin
Ken Holmes	Darlene Magold Scott	Chuck Davis
John P.-Darke County	Charlie Hickman	Todd Tucky
Donna Podolak		

II.   **Acceptance of February 25, 2013 Meeting Notes**
   a.   The February 25, 2013 OGRIP Forum Meeting Notes were motioned accepted by Jason
           Gillow and seconded by Donovan Powers. Motion was passed by all present.

III.   **Business**
   a.   LBRS – 77 Counties have been delivered to date. Lake County's MOA has been signed
           and will go to the controlling board. An MOA from Clermont County will be coming
           anytime. Their Commissioners will be voting on it this week.
           USDOT has identified funds which can be used for Transportation for the Nation. ODOT
           can pay 100% towards the LBRS data collection with no requirement for matching funds.
           USDOT has seen significant benefits using LBRS data and MAP 21 requirements for 2014
           data submission. USDOT is giving monies to local governments to support and maintain
           these activities.
           OSIP – Vendor started collecting data on February 26th. Vendor is concentrating on 5
           counties for enhanced imagery and LiDAR. The 2012 OSIP Data has been mailed out.
           Seven counties still have not updated their information.
           Todd Tucky has come on board as a consultant to help develop parcel strategy for the
           state, which includes a parcel conversion program, parcel data requirements and data
           sharing. Todd will start tomorrow and will contact the counties to inquire how the data
           is gathered. It is the hope that pilot projects and ground rules for Stateside will be
           developed. Standards need to be developed up front and hopefully once this is
           developed funding will be the next step.
           NG 9-1-1 - The Steering Committee has a 5-15-13 deadline as to how the NG9-1-1
           project should be rolled out for the State of Ohio. Legislature will then make their
           evaluations, funding models, and governance models based on the recommendations
           from the Steering Committee on how to develop a coordinated 911 system.
   b.   GIS User Group Updates
      i.   Ohio/Michigan – no report.
      ii.   SWOGIS - on Friday, 4/19/13 there was an Education series in Centerville, Ohio.
              It was a full day event of GIS Technology and use. The information should be
              available on the web at www.swogis.org.

      iii.   <u>Ohio/KI/Cincinnati</u> – no report.

      iv.   <u>GUONO</u> – no report.

      v.   <u>Central Ohio User's Group</u> – The next meeting will be on May 7th, 2013 from 2-4 p.m. at MORPC Headquarters.

      vi.   <u>Appalachian Ohio Geospatial Partnership</u> – Brett Allphin is working on a kick-off meeting with SWOGIS for GIS Piketon on April 18th, 2013.

      vii.   GIS for Strategic Asset Management – There will be a GIST conference in May.

      viii.   <u>OVRDC</u> – Jason informed everyone that on 4/18/2013 at the OSU Endeavor Center there will be a Networking Geoplatform with SWOGIS. Contact Jason Gillow , Brett Allphin or Tom for info.

      ix.   <u>Buckeye Hills</u> – no report.

c.   <u>County Profiles</u> - no report.

d.   <u>Ohio URISA Update</u> – Donovan Powers with ODNR said they are working on workshops for the Ohio GIS conference in September and membership drive renewals have been mailed. The next URISA Meeting will be on April 29th, 2013 at 1:00 p.m.

Presentation – Ian Kidner with the Planning Division of the Ohio Department of Transportation did an impromptu presentation on the TIMS (Transportation Information Mapping System) Project. It is a web-mapping application which tries to address the challenges that customers face when trying to access data, such as data is difficult to find and gather, inconsistent formats, and customers are not knowledgeable with GIS which makes it difficult for them to maneuver in programs. This will be unveiled to the ODOT Central Office by the end of May 2013. Training will be available through LTAP and support will be through the ODOT Helpdesk.

IV.   <u>Other Business</u>

a.   Discussion regarding the time of the next OGRIP Forum Meeting. It was suggested that the OGRIP Forum Meeting start five minutes after the URISA Meeting is over in order to keep the meetings moving along. The plan was to start the OGRIP Forum meeting at 1:45 p.m. It was suggested that call-in participants be on the phone 5 minutes prior in the case of an earlier start time.

V.   <u>Adjourn</u>

The next meeting will be on April 29th, 2013 at 1:45 p.m. at the Department of Transportation, Central Office. A motion was made by Ian Kidner and seconded by Darlene Scott Magold that the meeting is adjourned.
